

Peer Review: A Suggestion

- Discipline Level Coordination Meeting

Oceans proposal:

Who: Ocean's Team, 2-3 ext. reviewers
Timing: Meeting May 20-22 Miami
Object: Review of individual TM approaches
and produce a coordinated Data
Flow/Proto Algorithm/Product
Overview
Pubs: Ocean Team Report to TL/MST

- Team-Wide Coordination/Review

Who: MODIS Science Team
Timing: October 1992
Object: Interdisciplinary coordination
of MODIS *Overview*
Pubs: NASA Report to Project

- Community Review

Who: JGOFS, SeaWiFS, etc.
Timing: Fall 1992/Winter 1993
Object: Community consensus
and input/comment which
will be used in next version
Pubs: *Eos* ?

Annual Process

- Discipline Review
- Team Review
- Community Review
- Update *Overview*

Overview Document Structure

- Summary of integrated observing and processing approach
- Summary of each algorithm (2 ¶'s, 1-5 equations)
- Alg. input data dependencies/interdependencies
- Output Data products summary
- Calibration/validation plan summary(ies)
- Detailed (2-3 page) description of each algorithm
